TestAnyTime

Your comprehensive one stop solution for examination, assessment and data analysis

TestAnyTime software is a user-friendly, yet powerful form processing solution that helps users scan, collect and analyze data from paper based or digital forms to produce detail reports & results. Simply create your own forms using any word processor software or design program and then print using your own printer or copier.

You can then analyze your data within TestAnyTime while generating your reports and even exporting the captured data to numerous existing applications.
